

**Course:**

**ODYNE HYBRID SYSTEM TECHNICAL TRAINING**

**Description:**

This 2-day course offered by Odyne Systems Service Support, is designed for customer and service provider technicians. Participants will learn about:

- hybrid components and their functionality,
- hybrid system theory (how components work together),
- safety and preventive maintenance best practices, and
- troubleshooting and repair techniques.

Participants will also have the opportunity for hands on practice. After taking this course participants will be able to safely maintain, and respond to operational concerns with their Odyne hybrid system.

**Class Size:**

This course is available to groups of 6 to 10 technicians.

**Location:**

The course is normally offered at Odyne Systems, LLC in Pewaukee WI.

Alternate location: Contact Jason Beson, Director of Quality, Service, & Production at Odyne Systems to make arrangements to deliver the course for a group of individuals at your company location.

**Course Fee:**

GROUP rates available if enrolling 6 to 10 individuals from your company.

INDIVIDUAL rates apply if enrolling less than 6 individuals from your company.

Note: Fees for training offered at locations other than Odyne Systems, LLC may include an additional charge for instructor travel expenses.
