

**Course:**

**ODYNE HYBRID SYSTEM TECHNICAL TRAINING**

**Description:**

This 2-day course offered by Odyne Systems Service Support, is designed for service technicians and mechanics. Participants will learn about:

- hybrid component functionality,
- hybrid system theory (how components work together),
- preventive maintenance recommendations,
- safe work practices,
- troubleshooting and repair techniques,
- wiring drawing review, and the
- Odyne support website.

Participants will also have the opportunity for hands on exposure. After taking this course, participants will be able to safely maintain and respond to operational concerns with their Odyne hybrid system.

**Class Size:**

This course is available to groups of 6 to 10 individuals.

**Location:**

The course is normally conducted for a group of individuals at your company location. It can also be held at Odyne Systems, LLC in Pewaukee WI.

**Course Fee:**

GROUP rates available if enrolling 6 to 10 individuals from your company.

INDIVIDUAL rates apply if enrolling less than 6 individuals from your company.

Note: Fees for training offered at locations other than Odyne Systems, LLC include a charge for instructor travel expenses.
